

## About The House Professor

The House Professor is a locally owned and operated company and maintains a staffed office in Omaha, NE. Its owners possess more than 50 years of combined experience in the residential construction industry.

### Mike Bossé

Mike has worked on houses his entire life, and has been in the residential construction business for nearly 40 years. Born and raised in northern Maine, he graduated from Central Maine Technical School

with a degree in building construction in 1973. After coming to Nebraska in 1977, Mike continued his work in the construction industry and started his own business as a contractor in December of 1981. Specializing in residential and commercial remodeling and repair as well as custom home design and construction, Mike has continued to hone his mastery of the construction trades, without losing his ingrained Yankee values.

## Testimonials

*"Mike helped us in so many ways as we looked for a house to purchase. His experience allows him to see potential problems that we would never see ourselves, and he could estimate the cost of any necessary repairs or remodeling. Having someone we trust was so valuable and helped us through the process."*

-Jon and Carol N., home buyers

*"We learned a lot from Mike about our new home, and he showed us how to maintain an older house. Because of his help and knowledge we will be able to enjoy and care for this property for many years."*

- Ann Louise A., homeowner

## Home Education services

The House Professor Home Education services provide unique opportunities for you to learn about the components of your home. You can protect the value of your home by gaining knowledge about the various aspects of the property and learning how to keep it maintained.

### What's included in a home education session?

- Information about basic home components
- Home maintenance needs and schedules
